

**INDEPENDENT
STOCKING
DISTRIBUTOR OF
ELECTRONIC
COMPONENTS**

ABOUT THE COMPANY

CompoHub is a leading, independent stocking distributor headquartered in Arlington, Virginia, USA. Our global suppliers includes IC-manufacturers, franchised, catalogue and qualified trusted independent distributors. At CompuHub we specialize in selling electronic components as well as purchasing your excess material. Through our company, we combine a long list of components to attend to your every need, ranging from semiconductors, passive, electromechanical parts, boards, to storage technologies and wireless displays.

We have accumulated many unique features that have only one purpose: to increase the competitiveness of our customers. Global supply is one of our core competencies, we are known for flexibility in products, we are not entitled or limited to certain manufactures, or restricted to a specific geographical area, resulting in faster delivery, lower prices, and ability to supply any component from any manufacturer. In addition, we strive to provide the best service to our customers to help them succeed in their business. At CompoHub we have only one purpose: to increase the efficiency of our customers. It is our duty to strive day by day, to make your mission a reality.

The electronic components supply chain industry is one of the highest competitive industries. At CompuHub our goal is to provide our customers the highest quality electronic components at the best price. Through our networking, global foot print and our PPV purchase price variation strategy we are able to provide our customers with considerable cost saving opportunities.

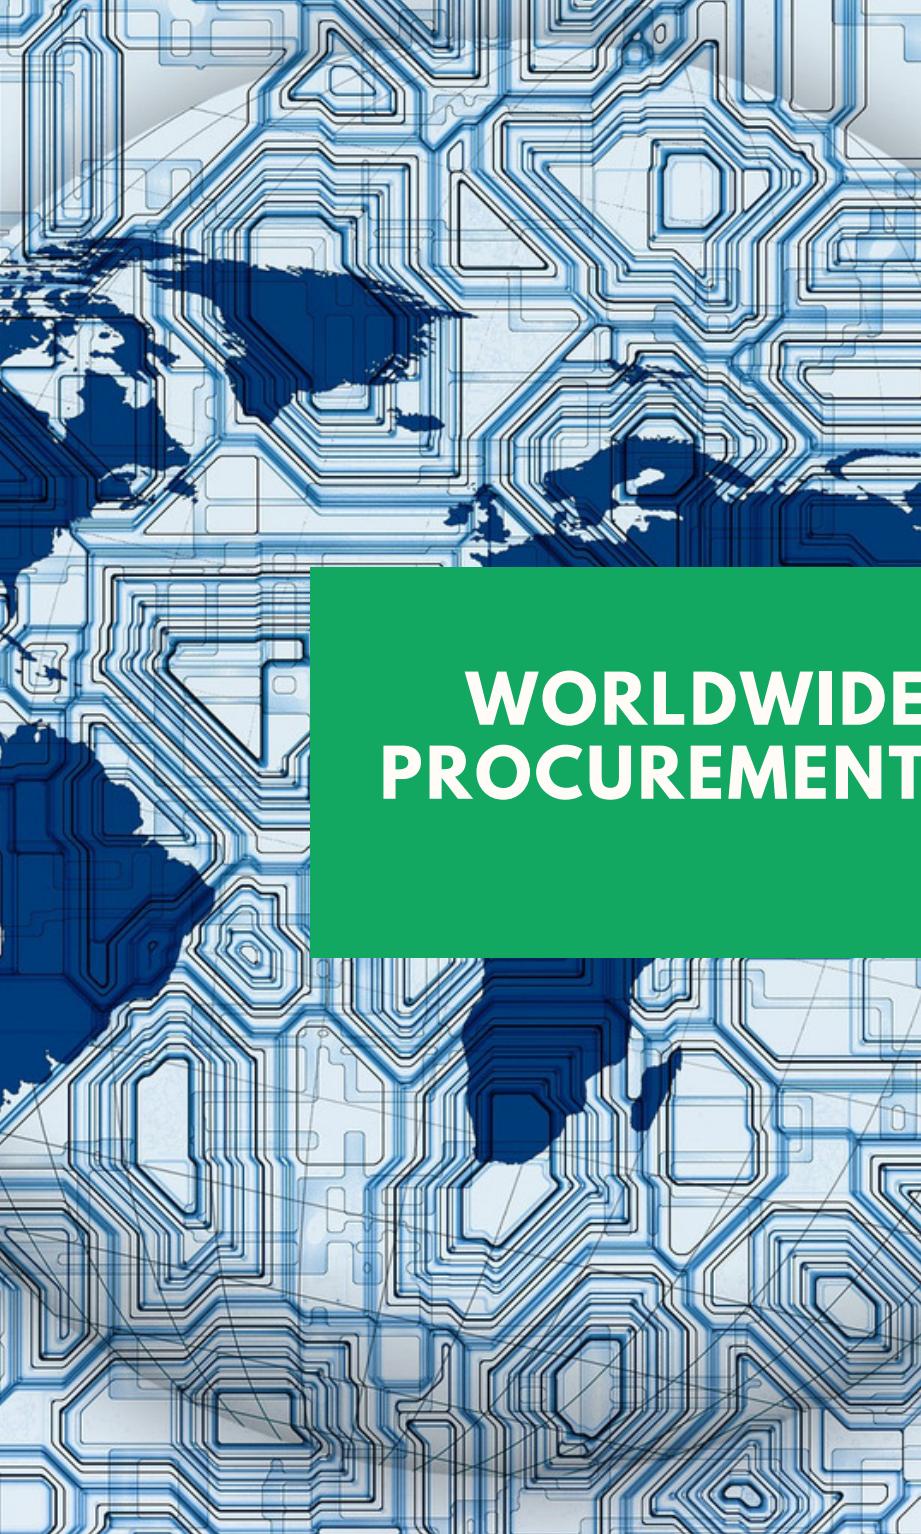

EXCESS MATERIAL MANAGEMENT

We know that our customers can be faced with issues as over-forecasting, technology change, PCB upgrades, cancellation, resulting in excess inventories, which in turn ties up capital, manpower, and warehousing space. Our excess management team is dedicated and specialized in finding our customers the best solution to maximize returns on excess inventory in an effective and confidential way.

Below are some of the solutions we employ:

Option 1: Whole lot buy: This solution applies to our customers that are looking for immediate disposal of their excess, to sell the whole lot at once and get it out of their warehouse and books.

Option 2: Single line buy: Items would be marketed in our worldwide proactive platforms and websites, while using our historical sale orders to target potential prospects.

WORLDWIDE PROCUREMENT

At CompuHub our mission is to provide our customers with competitive prices at the highest quality. Our worldwide expertise in the global sourcing market and relationship with manufacturers, franchised distributors and independent trusted distributors allows us to provide the best service to our customers. That is why we utilize a third party testing facility to run quality inspection and control on the components which we procure. We stand by the products we offer and ensure that our customers will receive the best products available on the global market.

SHORTAGE, OBSOLESCENCE & END OF LIFE SOLUTIONS

We know in the electronic industry a sudden upturn in production or supply failure can lead to shortage issues and even the risk of a costly line down situation. With our quick responsive times and experience in global logistics, we can defeat the threat of shortage issues and provide the right solutions you need.

At CompoHub, we understand that time is valuable and our dedicated and specialized teams are available 24 hours, 7 days a week to find solutions to your shortage issues. Our Sales team will dig inch by inch around the globe to find the right electronic components that you need for your production line.
